Placed Under Irrigation Ditch.

Wyoming Short Line Rallway company is and possibly his log. financed by the Big Horn Development company, which is constructing the great Oregon Basin Irrigation works in the Big Horn basin. The company is composed of Wyoming and Chicago capital. In a few days water will be turned into the main canal of the Oregon basin project, which has been constructed for a considerable distance, and the lands around Germania will be reclaimed next year.

The new railroad, work upon which will be commenced at once, will tap the rich agricultural sections of Germania and Grey-

Court has Much Work Ahead. MITCHELL, S. D., Nov. 15 .- (Special.)-

The term of circuit court for Davison county will convene in this city next Tuesday morning and a large amount of business appears on the calendar. There are twenty criminal cases to be tried, none of which is very important. On the civil calendar there are thirty-two cases. Of these eleven cases are for diverses, making the largest number that have ome up at a regular term wince Judge Smith adopted the ruling in the fourth circuit that no cases will be heard except at th regular term and then in open court. This as outside people coming in.

Boy Mistaken for Elk. LANDER, Wyo., Nov. 15.-(Special.)-Word received here today tells of a distressing accident that occurred at Fish lake, in Devil's basin, ninety miles from Lander, when Arthur Nipper, a 16-year-old boy, was mistaken for an eik by Dr. J. H. Ellis, a

NEW RAILROAD FOR WYOMING Lander dentist, and shot through the leg. Young Nipper was mounted on a pony and Designed to Tap Large Section Being was making his way through the timber, when he came upon Dr. Ellis, a member of another hunting party. Ellis says the boy, mounted on the pony, resembled an elk, and CHEYENNE, Wyo., Nov. 15 .- (Special.) he fired quickly. The soft-nosed bullet The Wyoming Short Line Rallway com- passed entirely through Nipper's left leg, and pear filed articles of incorporation with the striking a rib of the horse, spattered and secretary of state today. Its capital stock killed the animal instantly. Ellis, having a is \$2,500,000, and it will build a line of rail- knowledge of surgery, bound up young Nipway fifty miles in length, starting at Wiley, per's wound, stopped the flow of blood and and extending to the eastern edge of the summoned assistance, a messenger being Yellowstone National park. > Good of Teachers is in View. SIOUX FALLS, S. D., Nov. 15 .- (Special.) -While making a short visit to his home in this city H. A. Ustrud, state superintendent of public instruction of South Dakota, announced that he had completed plans for a trip through the state in an effort to raise the standard of teachers by bringing about the payment of living wages and making the profession more of a certainty, and causing the general public to take more interest in the rural schools by putting up new buildings, beautifying the grounds and by electing school officers who will see to it that these reforms are brought about. State Superintendent Ustrud an nounces that on his forthcoming officia trip he will visit every county in the state and plans to attend the annual meetings of the school officers and teachers of every county in South Dakota, including the Black Hills, and to take part in the meetings and thus encourage the local friends of the rural schools.

Domestic Troubles Cause Death. SIOUX FALLS, S. D., Nov. 15 .- (Special.) -From recent developments in connection with the suicide by hanging a day or two ago of Clement Saunders, who was conruling has had the effect of cutting down nected with the local branch house of an the divorce business in this circuit so far eastern brewing company, the suicide grew out of domestic difficulties. It had always been supposed here that Saunders was a single man, but it now is learned that a short time before the tragedy his wife appeared in Sloux Falls quietly and attempted to effect a reconciliation with him. It is understood they have three children, and that the mother and children reside at some point in Iowa. The efforts of the wife were unsuccessful, and alleged threats then made by her that she would commence an action for a divorce are alleged to have caused the suicide. At the time of the suicide it was supposed that Saunders committed the act while temporarily insane as the result of excessive drinking.

Elks to Build Club House. MITCHELL, S. D., Nov. 16 .- (Special.)-Three weeks after the organization of the Elks' lodge in this city plans were formulated looking toward the building of a home. The lodge was organized last Feb ruary, and today ground was broken for the erection of a building that will cost \$25,000. The site is located on Main street across from the corn palace building. The basement will be excavated and the founds tion built yet this fall. The foundation will stand six feet above ground and be built of granite, while the superstructure wil be built of pressed brick.

DUN'S REVIEW OF TRADE

Interior Now Feeling Effect of Scarcity of Currency.

BUSINESS SOMEWHAT RETARDED

Large Experts of Farm Products Tend to Hasten Return to Normal Conditions-Factories on Short Time,

NEW YORK, Nov. 15 -R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

Liberal receipts of gold from abroad and a large increase in bank note circulation tend to relieve the financial stress at New York, but the interior I now feeling the scarcity of currency and commercial activity is retarded to some extent. Dispatches from leading cities indicate conservatism in preparation for future business, and irregularity in collections, with most favorable news from agricultural sections in which the crops are being marketed as freely as the supply of money will permit. Return to normal conditions will be hastened by large exports of farm staples, supplying credits abroad upon which the much needed gold may be imported. Official returns indicate that exports of this nature were valued at about \$100,000,000 in October and the outgo of grain and cotton is on a still larger scale this month. It is particularly fortunate that there was not the customary borrowing abroad this summer in anticipation of agricultural exports so that payment

this month. It is particularly fortunate that there was not the customary borrowing abroad this summer in anticipation of agricultural exports, so that payment is now due for these shipments, whereas usually the remittances are needed to meet maturing bills in the exchange market. Financial pressure has affected the iron industry, curtailing new contracts for all forms of finished sizel. Few new orders have been received by the mills and some deliveries on old contracts are deferred because funds are not available to meet specifications.

Primary markets for cetton goods are quiet, aithough the mills are still well occupied filling old contracts. Reports of the closing of woolen mills should not be given undue significance, more or less idle machinery being customary at this time of the year, and no additional new business is to be expected until clothiers begin to send duplicate orders.

Footwear factories note a slackening in demand and output is being curtailed to prevent overproduction. Thus far the percentage of reduction is not heavy, some plants operating five days a week and others seven hours a day. There is little effort to force business, producers being more concerned in clearing up old contracts and collecting accounts. Tanaers report a quiet leather market, some concerns receiving more countermands than new business, but the statistical position is strong, because production has been curtailed for some time. Prices are steadlest for sole leather, of which the output was first reduced, while there is pronounced weakness in harness leather, belting butts and glazed kid.

REPORT OF THE CLEARING HOUSE

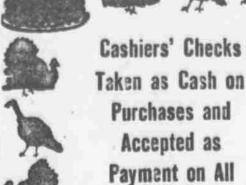

Transactions of the Associated Banks for the Week.

NEW YORK, Nov. 14.—Bradstreet's bank clearings report for the week ending No-sember 14 shows an aggregate of \$2,566,836,-100, as against \$2,372,756,000 hast week, and \$3,342,601,000 in the corresponding week last year. Canadian clearings for the week total \$92,378,000, as against \$106,020,000 last week, and \$95,583,000 in the same week last year. The following is a list of the cities:

CLAIMS IMMUNITY WALSH of Books of Southern Indiana Railroad by Grand Jury Pleaded as Bay.

CHICAGO, Nov. 15,-A long-drawn-out argument between opposing counsel and in Which the court took part from time to time, over what is regarded as practically a plea for immunity because the books of the defendant had been used in the federal grand jury investigation of his atfairs, consumed the afternoon session of court in the trial of John R. Walsh on a charge of having misappropriated funds of the banks with which he was associated. The question of immunity was not settled

when adjournment until Monday morning

was taken, Judge Anderson announcing

that he would reserve his decision until later. The immunity plea was based upon the fact that the books of the Southern Indiana Railway company were used as evidence by the federal grand jury in its examination which resulted in the indictment of Mr. Walsh and were about to be used by the government in the present trial. The books were being examined and entries in them read by National Bank Examiner E. P. Moxey under a steady fire of objections from the other side when the court interrupted with the statement that no headway was being made. "Let the jury be excluded." he said.

"and we will settle this question right Attorney John S. Miller, of counsel for Mr. Walsh, declared that he was not ready to meet the issue, and it is expected that he will be given an opportunity on Manday to cite authorities in support of his con-
